

7 Mountains

The mountain of Education

The Mountain of Education. This mountain is another important mountain. Education for the masses was established in 1600-1700. It focussed on teaching that God is the centre of the universe. All teaching revolved around this premise. However in our current day the tables have been totally reversed and humanism is now entrenched in all our school education systems and universities. We have a monumental task ahead of us. We need Elijah revolutionaries at all levels of the mountain to reclaim what belongs to the Lord. All children at state and even Christian institutions are being brainwashed with humanistic teaching. The principality at the top of this mountain is Beelzebub. He is the Baal of lies.

Kingdom Thinking. Kingdom thinking is not as the world thinks. Most of our cultures have been totally influenced by Greek thinking practice. It is all left brain orientated. Our children and ourselves emerge from the educational system almost 100% left brain thinkers. The female sex is affected to a lesser degree. So why is this so wrong? Read what Jesus did in the gospels. He violated every left brain thought. One will put a thousand to flight. 2 fishes and 5 loaves of bread will feed 5,000. You have to be born again to enter the Kingdom of God. If you want to be great you must become the least. Jesus taught and demonstrated the exact opposite to how the people of His day thought and He has not changed. The right side of our brain is the part that is more attuned to His Spirit.

Kingdom Education. Schools and universities will challenge the status quo. Curriculums that have the kingdom stamp on them will be far more popular and a new generation of children will be taught of the Lord. Holy Spirit empowered teachers are the essence of reversing the current situation. The current school and university curriculums need a complete overhaul. This is an enormous task and only the courageous can pull it off. When the high places are occupied by God centred people there will be a flow of creative thought never experienced before. This will spread to all other mountains. The displacement of Beelzebub and his cronies from this mountain is a spiritual battle, so prayer must precede and accompany any strategy from the Lord. Only pray what the Lord asks you to pray otherwise you can become a pawn of the enemy.

Kingdom education is not about imposing Christianity, as the Kingdom of God only advances under free will. When the King is present He draws all men and women and children to Himself.
