

7 Mountains

The Family Mountain

What is Family

Family is an institution created by God. It consists of parents, of male and female gender and children. God is family. Family is very close to God's heart and the breakdown we see today in the family unit breaks His heart. He desires and will restore family. The last verse in Malachi 4:6 tells us that in the last days God will restore the hearts of the fathers to the children and the hearts of the children to the fathers.

The Damaged Family unit.

The enemy over 2 millennia has caused massive breakdown and dysfunction in the family unit. The spirit at the top of this mountain is Baal. He was regarded as the god of fertility, provision and the god for almost every other need. The father is the key person in the family. A dysfunctional family will have a bad father as the head. He may not even be there as is common today. Children are wounded early in life and it is often the father who is responsible for this condition. Just one outburst from the father can cause lifelong damage in a child. A child of their own accord may misinterpret a parents word of correction which results in the same damage being done. A family is glued together by love, first between the husband and wife and then between them and the children. In the western countries, in the 1900's, the father has seen his role as the bread winner but has lost the plot in realising he also needed to express love by words and deeds to his children. Children were 'seen but not to be heard' was the motto. A rejected child becomes a person who often carries that rejection into their marriage and thus perpetuates the problem to the next generation.

The governments of the world have been responsible for many unjust laws and then backed up by unjust judicial systems. Abortion has been ratified almost worldwide. Satan is killing off the next generation and having a field day. Our standards of morality have slipped into the pit. Homosexuality and all forms of immoral conduct are rife. The child is often unable to distinguish a correct moral lifestyle as they enter adulthood. Our teaching institutions now actively promote an alternative lifestyle as being normal.

Correcting the Damage.

How will God bring about this transformation? It will take believers on every level of the mountain to be actively engaged. We need the Elijah revolutionaries. The top of the mountain needs to be retaken by godly men and women who reinstate godly laws and justice for the family. This will overflow into the education mountain. These Elijah revolutionaries will have a pastoral attitude in their work.. This mountain requires much intercession. Even corrupt people in the mountain can be influenced by prayer to introduce redemptive changes. It is predicted that many new workers on this mountain will be those who have been hurt the most. We currently have millions of orphans worldwide who need the father heart of a loving God ministered to them.
