

7 Mountains

The Mountain of Government

The Mountain of Government. This is the mountain that influences all the other mountains. It is from this mountain that all laws and decrees are made in a nation. As such Satan sits at the top of this mountain. It is the governments role to establish and administrate civil laws and justice. The mountain has a diverse range of functions and levels of operation. Corruption in government brings about a lowering of morality and integrity throughout its structure and hence its impact on the nation is detrimental. When Satan is successful as the destroyer and perverter in a nation, that nation will become poverty stricken and the next step down is lawlessness.

Godly Government. It is our role as believers to bring about Godly laws and justice in our nation. Bringing the Kingdom of heaven into our government systems at all levels is essential. All endeavour must begin and be birthed in prayer followed by action. Prayer without action is of limited value. This mountain is where the apostles are to shine. Apostles with the help of their entourage will eventually take this mountain in many different countries of the world. Great humility is required along with God given authority.

There is a great danger for men and women who have significant spiritual authority entering the arena of politics. Firstly they must hear clearly from the Lord before entering politics. It would be most prudent when doing so to lay down their God given spiritual authority otherwise confusion is the likely result. This does not mean one cannot wear the spiritual hat and the civil hat, but great skill is required to make sure the hearer understands which hat or role one is representing. Media can have a field day if you make the mistake of speaking with the wrong hat on.

The Government of God. This is the government that Jesus, King of kings and Lord of lords will ultimately bring about on the earth at His second coming. It does not mean we sit idly by waiting, because every righteous change to laws and procedures we make before His return will not need to be reversed. It could make the difference between Jesus determining whether or not your nation is a sheep nation or goat nation. His government will combine spiritual and civil authority without corruption. It is biblically correct to say that the church of our day should have a voice in government and the virtual total separation we see currently in most western nations is not desirable.
