

7 Mountains

The Mountain of Spirituality

The Mountain of Spirituality has been ruled by Satan since the fall of Adam when the human race forfeited its role of dominion of the planet, and this mountain like all the other six mountains has demonic spirit entities ruling at the top. In this mountain all other religions have specific spirits masquerading as the Holy Spirit. Deception is the number one aim of these spirits. An amount of truth is permitted in other religions as long as it does not contain the whole truth of the the Kingdom of God.

Spirituality Spirituality can be defined as religion. There are 4 main religions in the world, those being a) Christianity b) Islam c) Buddhism and d) Hinduism. In all four, worship is directed to one god or many gods. All religion is the service and worship of a god. In Christianity worship is of the triune God: Father, Son and Holy Spirit. In Islam their god is Allah. In Buddhism, a non-theistic religion, worship is directed towards a large number of idols and images. In Hinduism there is an almost unlimited number of idols and images.

A Christians Role. A true believer is a Kingdom person. They serve and worship the King of kings on a daily basis. He is the God of love. A God who desires all the human race to be his children...forever. His desire and plan from ages past is to restore the world and the human race to their rightful role of ruling planet earth. He is a God of life and as such all who serve Him need to be born of the Spirit to have a real day to day relationship with Him. We can only relate to Him 'in the spirit' because He is spirit. Our task on this mountain is to represent the Kingdom of God and bring the Kingdom into our culture and daily life. When the Kingdom is manifest, change is made possible, and the spirits who occupy this mountain are displaced by the Holy Spirit.

The Future Ownership of this Mountain. Jerusalem is the earthly battleground because this is where Jesus will return at the second coming. This spiritual mountain belongs to the King and He will reclaim it and occupy it fully. The Kingdom, which is the rule and reign of God, is coming upon us at an ever increasing rate. It is like a worldwide honeycomb that continually drips the 'honey of God' displacing what is sour and tasteless. Do not despair because of worldwide disasters and wars, because the Kingdom is advancing every day. It is predicted

that Islam will fall and when this happens, they will become radical believers in the King and His kingdom. They will strengthen the end time church.

The last Spiritual battle on this mountain will be against a version of christianity that has a form of godliness but denies it's power. This will be a very real wolf in sheep's clothing. This will be the final deception to be defeated.
