

# 7 Mountains

## The Mountain of Economy

**The Mountain of Economy.** This mountain may also be called the mountain of money or wealth. Isa. 2:2-3 says “In the latter days ...the mountain of the Lord’s house will be established on top of the mountains ..and all nations shall flow to it.” We must get ready for the transfer of the wealth of the nations into the hands of kingdom minded people. Christians who do not understand the kingdom of God will not be able to take part in this soon future economic transfer of wealth.

Economy may be described as the the process of changing resources via the production and manufacture stage, then through distribution to the consumption stage. It operates by the law of supply and demand. Economics is extremely complex and as we know economists around the world differ greatly in their interpretation of national and world situations.

**Who controls the Mountain?** Mammon is the spirit at top of the mountain and he influences the world money traders who create economic reality. The world of finance is a very deceptive world and the enemy is very good at twisting truth and bringing about corruption. Rumours and perceptions are as powerful as actual reality. The daily activity on the world’s stock markets can determine a nations financial health regardless of the real economic state of that nation. Greed is the driving force on this mountain. It is no wonder that the mark of the beast 666 is an economic mark.

**Who can take this mountain?** Any believer wishing to enter this mountain for the kingdom must first be free of mammon. The love of material goods, wealth and of course money is a definite sign you should not be on this mountain on the King’s business. It will be counter productive. Stay out! Kingdom people on this mountain will be given great wealth, but they will use it for kingdom purposes. We are exhorted in Rev 18:4-6 ‘to come out of her’ meaning Babylon. The church is a borderline case of being a merchandiser and needs to be sanctified. We would be better seeking the Lord in prayer for His strategies than in selling goods for profit.

Prophets will play a key role in the taking of this mountain. They will identify the wealth that God is going to release into His kingdom. This transfer of this wealth will not come from our ability to ‘make’ the money, but from God simply releasing it to us. It will be like the Israelites plundering the enemy’s camp for the gold, the silver and the jewels. “The gold and silver are mine” says the Lord. He will bank roll kingdom businesses and even nations in the future so that they will not depend on the world financial system.

There is every reason to believe that the world economy will be shaken again in a much more dramatic way thus bringing about the collapse of the Babylon system of finance. Haggai 2:6-9.
